

# Smart Mini DC UPS

KP2

Keep Wi-Fi Power On  
10000mAh / 37Wh

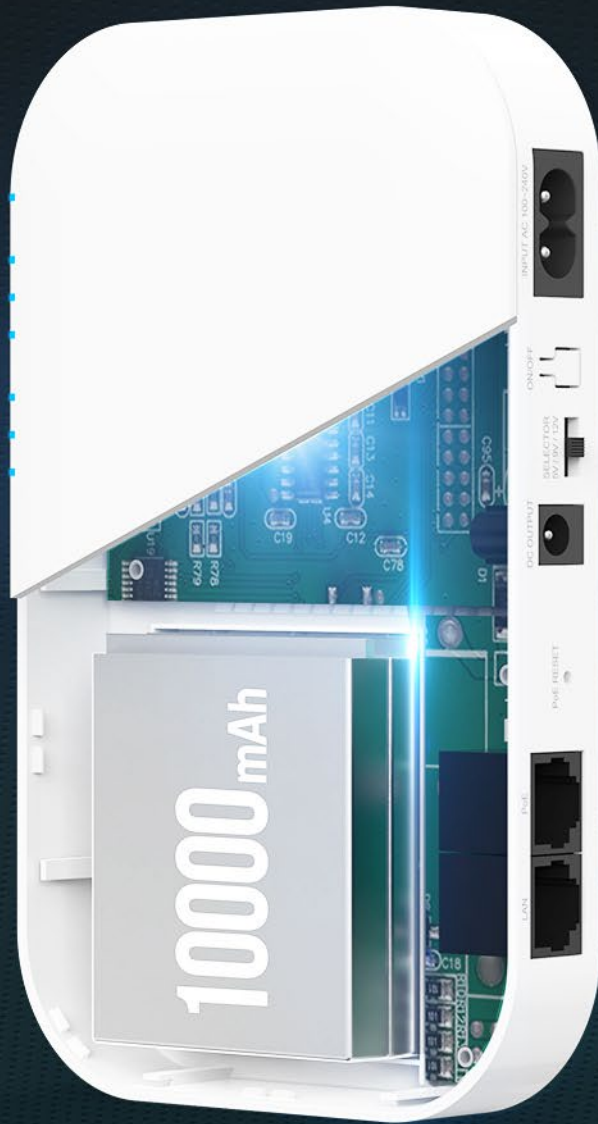

# Multiple Output

1\*DC + 1\*USB + 1\*PoE outputs support powering up 3+ devices

# High-capacity Battery

10000mAh high quality battery provides  
longer backup hours

# AC to DC 0 ms Transfer

Keep your devices stay working when UPS shift from AC mode to battery mode

# Honeycomb Ventilation

Evenly distributing operational heat faster, ensuring long-term stability

# Convenient Wall-mounting Design

With wall-mount slots on the back,  
you can mount your KP2 on a wall easily

Wall-mount slots

# 6KV Lightning Protection

Ensures all-weather suitability, protecting your device working safely

# Stay Safe From Fire

V-0 flame retardant product housing secures you and your property

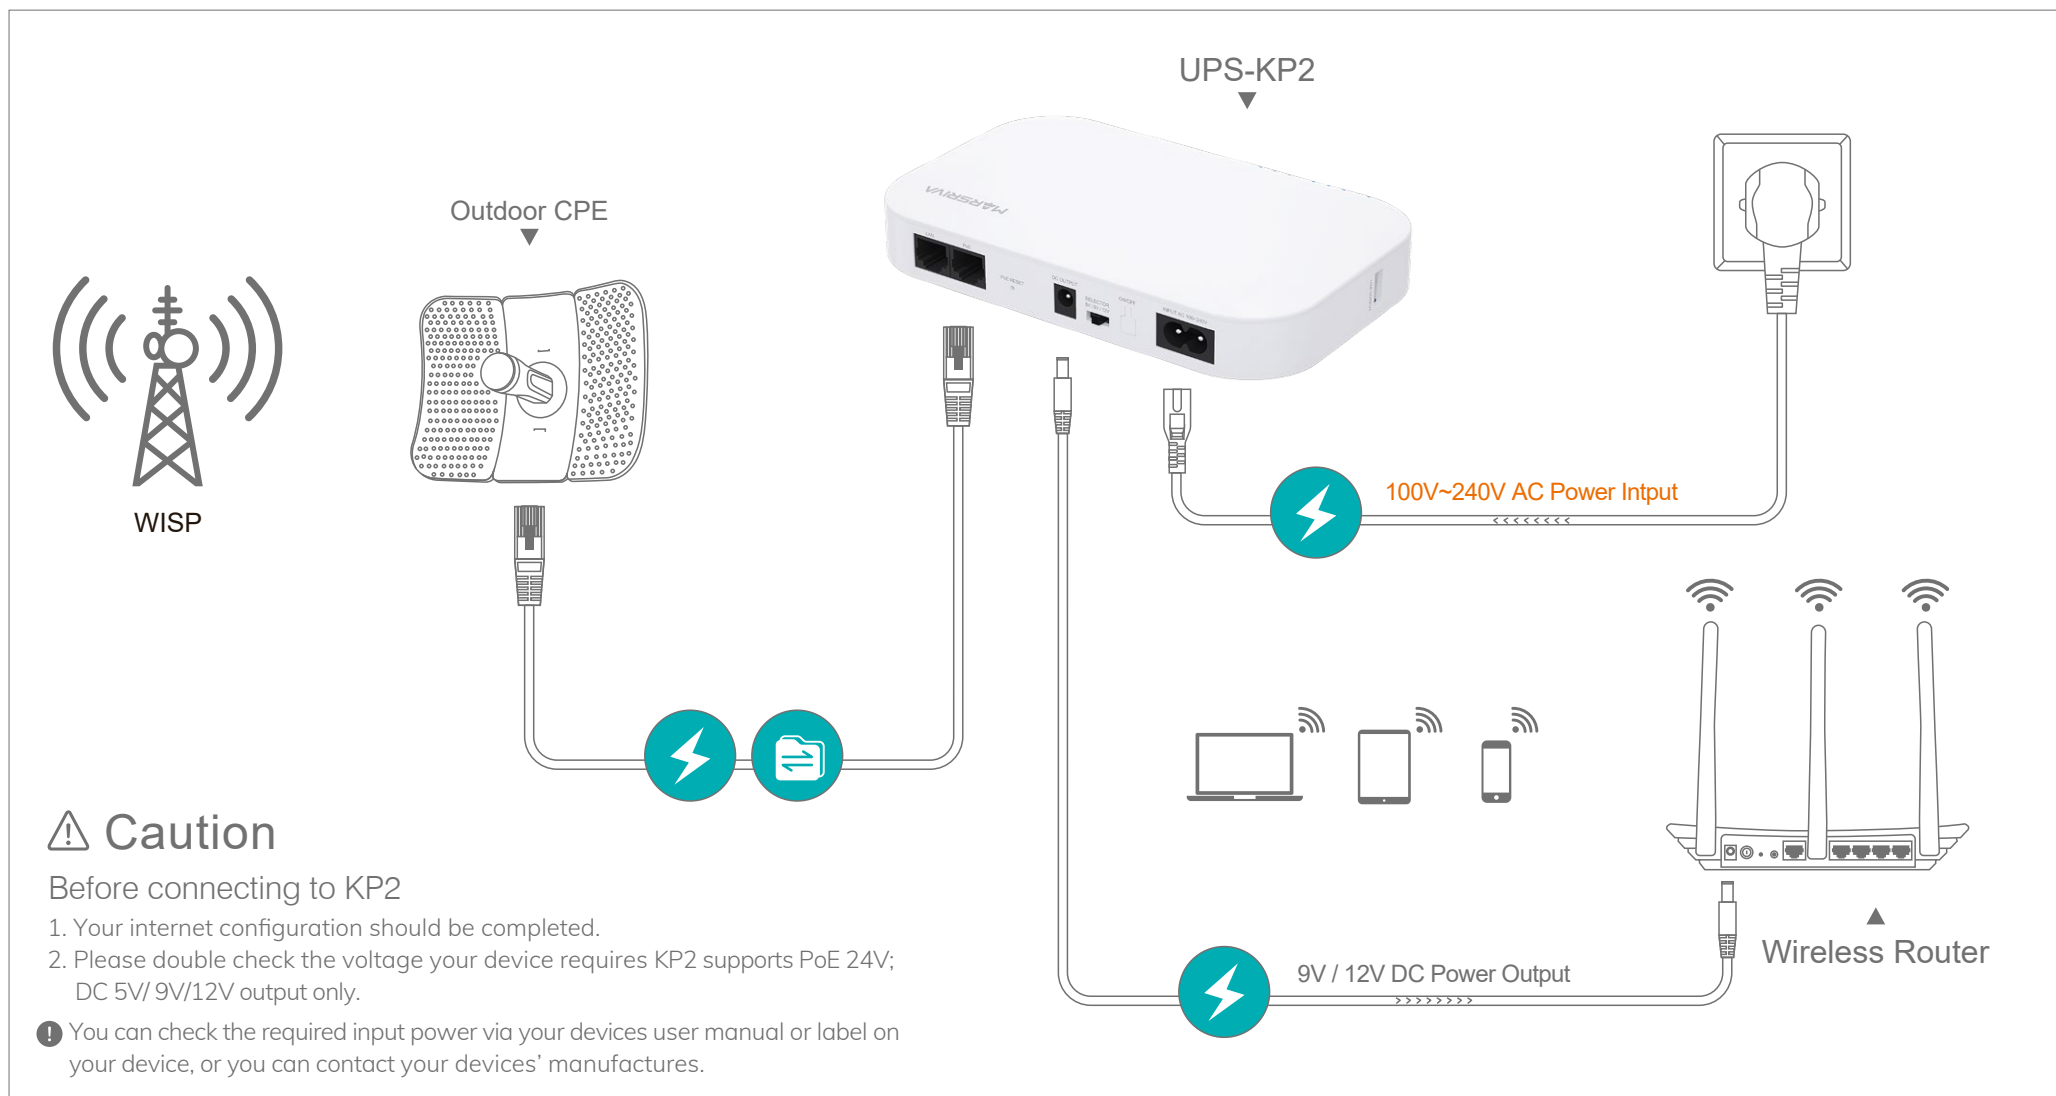

# Broad Compatibility

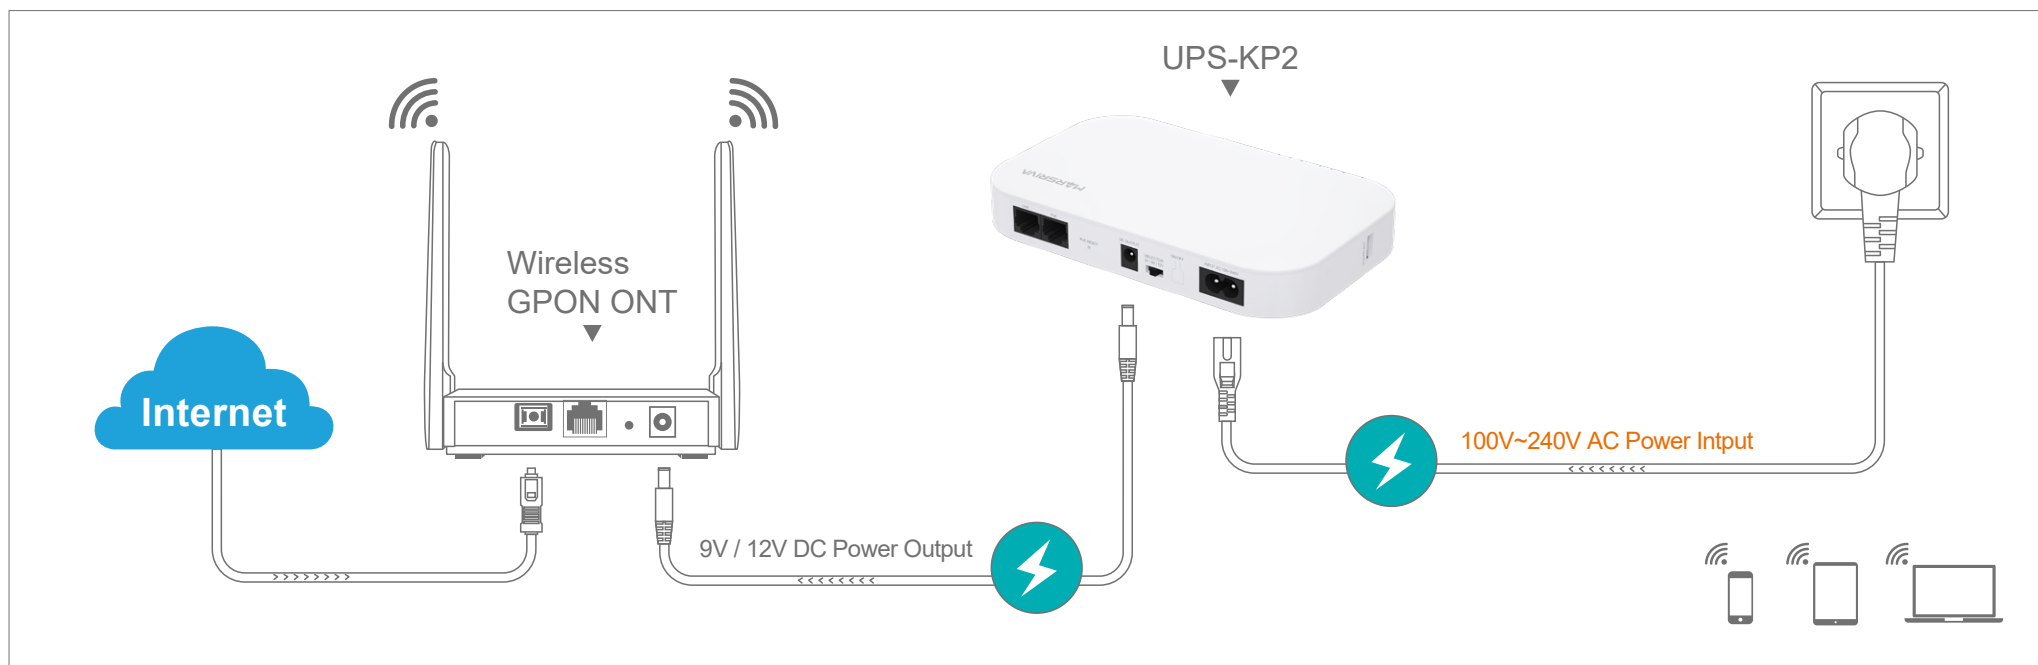

With 5V/9V/12V DC and 24V passive PoE output, KP2 is compatible with most of the digital devices

Typical topology 1: Powering up 1\*PoE device + 1\*DC device

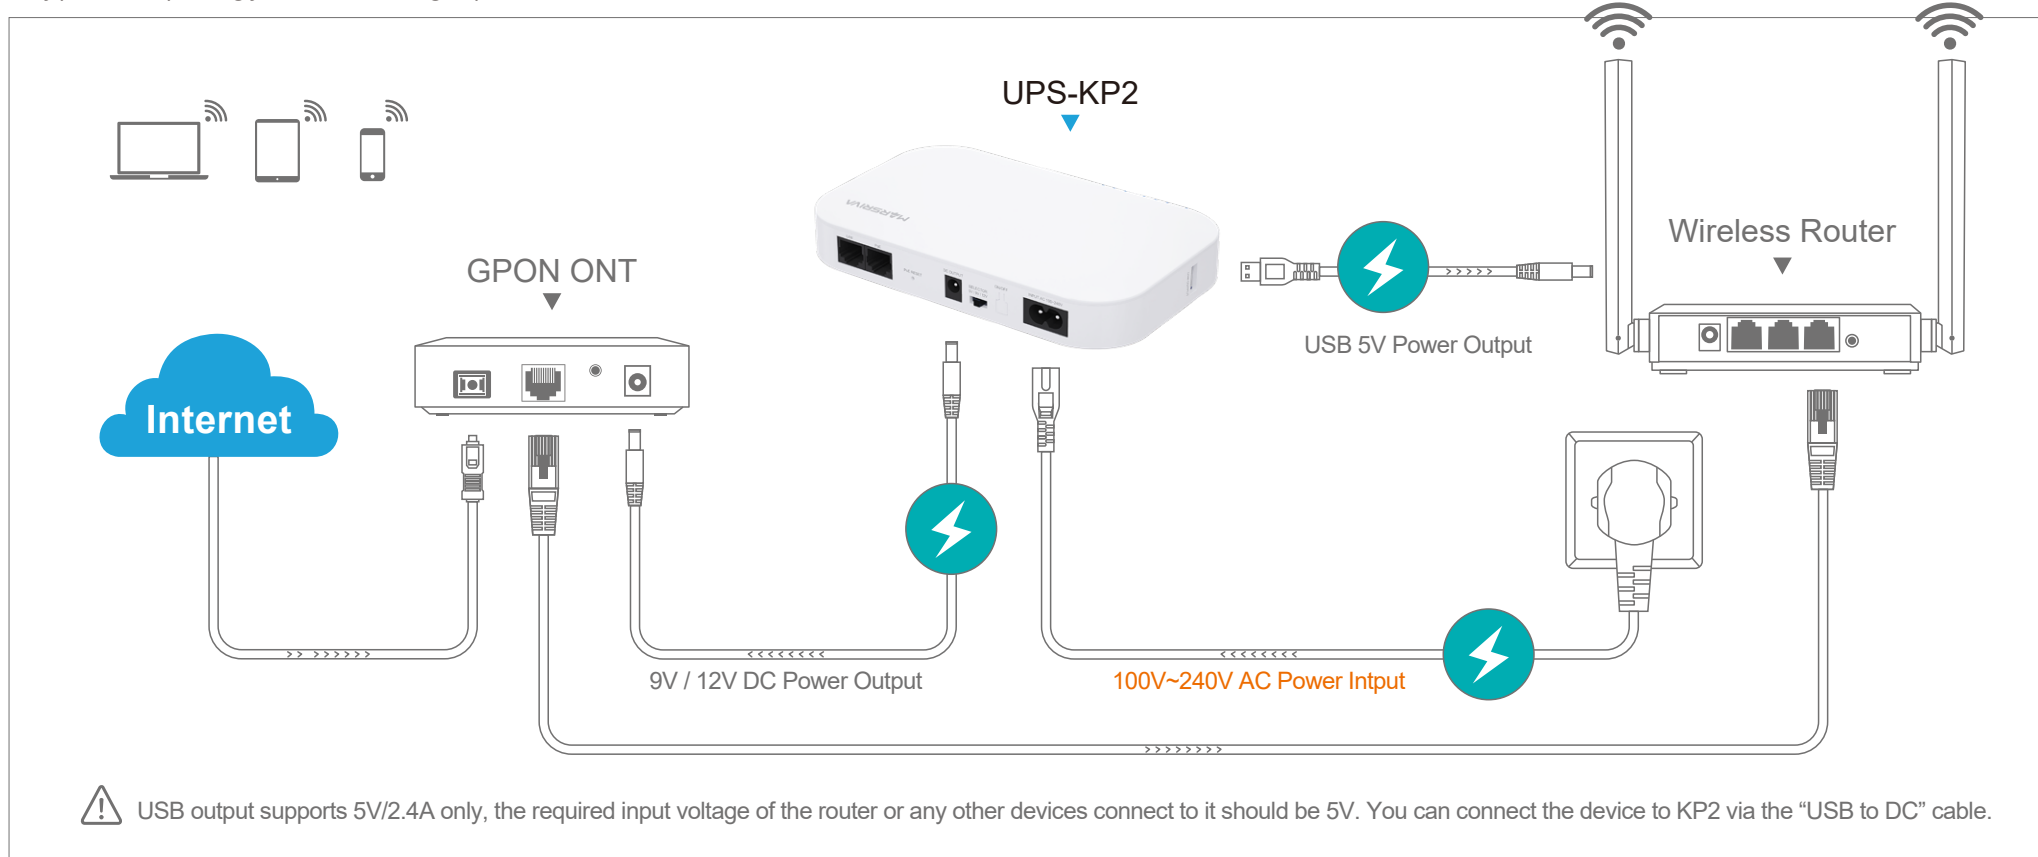

Typical topology 2: Powering up 1\*DC device

Typical topology 3: Powering up 2\*DC devices

## Specification

Name	Smart Mini DC UPS
Model	KP2
Battery Capacity	10000mAh (2*5000mAh)/3.7V 37Wh
Input	100~240VAC / 50-60Hz
Output	PoE 24V / 0.5A (+4,5pins; -7,8pins) DC 5V / 9V / 12V (Selectable) / 1.5A USB 5V / 2.4A * 1 ports
Total Output	18W (Max.)
Unit Dimension	170mm * 104mm * 30.8mm
Net Weight	360g
